

**For Immediate Release**

March 5, 2018

## **FASTER, EASIER, SAFER CLEAN-UP WET OR DRY**

### **Home + Housewares Show Goers Get A Sneak Peak At One Pass Mini Collection Pan**

**Hollister, CA** — Designed specifically for the home, the One Pass Mini-Gelblade & Collection Pan is the latest innovation from Don Varner. An automotive industry legend, Varner turned his talents to the home bringing the original Water Blade with a host of tailor made designs. Come by Booth N8663 to see exactly what hot rods and housewares now have in common.

"Don't call it a dust pan," cautions Varner. "It works to collect liquids as well as dust and other debris." The One Pass Mini-Gelblade & Collection Pan is the perfect combination for all manner of accidents around the home. From a bowl of Cheerios to a broken glass, clean up is quick, simple and safe. Features a unique patent-pending built in drain allowing no-touch separation of fluids and debris. The pan is specially designed to store the included Mini-Gelblade so it's always ready for the next use.

The patented Gelblade, combined with a first of its kind Collection Pan, makes for a one-two punch for wet and dry applications. The Gelblade is used much like a whisk broom, collecting all manner of debris and fluids quickly and easily. Its silicone blade is safe with all common cleaners and works on virtually any surface. The Y-Blade edge conforms to the surface and removes over 90% of fluid quickly leaving a dry, safe surface behind.

Perfect for homes, day-cares, restaurants, bars and anywhere else spills happen. Surfaces dry faster and sharp debris never has to be handled. Make a safer environment for your family, customers and team members.

#### **FEATURES & BENEFITS**

- Patent-pending drain and filter for separating solid waste from fluids
- Safer since sharp debris never needs to be handled
- Extremely Durable collection pan holds 12 fluid ounces (plus debris)
- Sanitary: Virtually eliminates messy towels
- Excellent for bars, restaurant and home use
- Temperature and cleanser resistant

Be among the very first to see the One Pass Collection Pan during the show, the public release date is not until May! The entire range of innovative One Pass products will be displayed during the 2018 International Home + Housewares Show, March 10-13 in Chicago, Illinois.

###

**About One Pass USA** — One Pass founder Don Varner is a professional innovator, inveterate tinkerer and legend in the automotive world. Hot rod enthusiasts might recognize him as the designer behind such famous custom 'Rods as *El Matador*, *Silhouette* and *The California Star*. Varner turned the custom world on its ear back in 1984 when California Star took top honors at the Grand National Oakland Roadster Show. Despite enormous controversy, Don's version of the classic 1927 Model T earned the title "World's Most Beautiful Roadster" and cemented his place in the automotive world. It was this kind of disruptive solution that brought the original Water Blade into existence, upending the car care world in the process. That sounds a bit dramatic, but take a look at how many copies have hit the market since and you'll see what we mean. When we released the first Water Blade in 1996, it was called the "Original California Water Blade" — now it's simply Original Water Blade. Don takes enormous pride in every product he designs, so you know if it bears the One Pass name, it's a game changer!
